# SHOCKING KIDNEY HEALTH NEWS UPDATE!

People don't know they have kidney problems until their kidney disease is **stage 3 or 4** with kidney damage so severe they end up **on dialysis for life!**

**1 in every 5 people** during their first year **on dialysis** in the U.S. **will DIE!**

Individuals with CKD are 16 to 40 times more likely to die with kidney failure from complications such as a heart attack or stroke.

**The All Natural Kidney Health & Kidney Function Restoration Program**

**Thanks!!**

Kidney disease affects **4** in every 10 people over age 65.

Can you prevent worsening kidney problems and **avoid dialysis with the condition your kidneys are in now?**

Dear Kidney Disease Sufferer,

Hi, my name is Robert Galarowicz.

I suffered with stage 5 kidney disease and my kidneys failed me!

I was lucky enough and young enough to get a kidney transplant.

But now I have to **deal with transplant anti-rejection drugs** and having a higher risk of not only that my kidney may be rejected by my body -- but **HIGHER RISK OF DIABETES AND EVEN... CANCER!**

So I KNOW from *horrible* past experiences with my own kidney failure what you *could* suffer -- if you don't do something to reverse your problems with kidney disease *right now!*

Here's what happened to me...

**I Was *Only* 22  
When My Doctor Told Me...  
Your Kidneys Are Killing You!**

I suffered with a constant FOG in my brain ... along with moodiness, fatigue, swelling,

**The All Natural Kidney Health & Kidney Function Restoration Program**

**Thanks!!**

headaches, depression and loss of appetite.

**My health got worse as time when on . . .** so I went to get checked out. I still remember the look on the nurse's face when she took my blood pressure . . .

**Total shock and confusion as my blood pressure reading came back at staggeringly high 190/110!**

I was just 22 and my doctor was afraid I was going to drop dead of a heart attack. The doctor ordered some tests and the results showed there was **something "Wrong" with my kidneys.** Not diabetes, not some other specific disease. Just something "*wrong.*"

I'll never forget the moment the doctor looked me in the eye after doing my biopsy and told me...

**“Robert, You Have Only 10 Years To Live. .  
.”**

Everything came crashing down around me. All my plans to start a career, meet the woman of my dreams and marry and have kids -- *vanished* before my eyes!

Over the next two months my doctors pumped me full of Prednisone and Cyclosporine - drugs that were supposed to **help stop my kidney failure.** . . . But all it did was give me awful acne and make it impossible to sleep . . . I was soon overwhelmed with mood swings, terrible depression and psychosis that put me in the hospital.

That's when they told me my **kidneys were close to failing!**

I needed to get ready for dialysis and that's when the **put the fistula in my arm.** (the photo to the right ==>

The fistula is a surgical connection between a vein and an artery that makes a big enough vein for the **huge dialysis needles.**

I remember waking up from surgery, seeing the 9 inch scar on

**The All Natural Kidney Health & Kidney Function Restoration Program**

**[Click Here to Download](#)**

**Thanks!!**

my arm and just **breaking down crying**. The worst part was the **doctors still had no idea what I had or why my kidney's were failing**. They just call it “unknown glomerulonephritis” . . .

Eventually I start showing more loss of kidney function . . . **My kidney health continues to worsen** and this goes on for 2 years until . . .

## I Had **TOTAL Kidney Failure . . .**

**It was Horrible... I vomited every day for 3 months straight, with** paralyzing fatigue, suicidal depression, and bad swelling in my legs.

I had no social life, because not many girls want to date or be around a **sick guy... “who will end up on dialysis.”**

Things got worse, when I ended up in the hospital **almost in a renal failure induced coma**. And that’s the first time they hooked me up to the machine . . .

3 days a week, three to four hours a day they **puncture my arm with two oversized two-inch long needles** and “**clean my blood.**”

What you might not know about...

## **DIALYSIS . . . is ONCE you start it It’s For The Rest Of Your Life . . .**

Or until you get a kidney transplant (If you are lucky enough to get a kidney transplant.)

**I Felt Like A Prisoner Chained To That Damn Machine!**

✓ **Excruciating pain from the needles and the cramping . . .**

**The All Natural Kidney Health & Kidney Function Restoration Program**

**[Click Here to Download](#)**

**Thanks!!**

- ✓ Feeling wiped out all the time from the dialysis.
- ✓ Not to mention the blood clots, pulling too much water out of your body or the 100 little things that can go wrong every time you go in.
- ✓ The *worst* part was the loneliness...

I remember when the dialysis nurse put the needle in my arm for the first time. I thought about how it was the first time in two years a woman had touched me.

For two and a half years my **life revolved around dialysis**. I wake up every day feeling awful and hoping with everything I would get a kidney transplant.

Then I get lucky . . . I get a call from Miami saying **they have a 'cadaver' kidney for me . . .**

I hop a plane feeling so excited. Feeling like I can finally say goodbye to that machine and get my life back. But the **new kidney fails right away**. I spend 14 days in the hospital when it was supposed to be only 4 days. The **surgery is horrible!**

Complications keep coming up and I start to think I made a BIG mistake. That I would have been better off staying on dialysis.

Even when my new kidney stabilizes I still have to deal with the **rotten side effects of the anti-rejection drugs** I'm on: acid reflux, frequent colds, joint pain, depression and feelings of anxiety.

## Why Am I Telling YOU All This?

Even now, **9 years after my transplant** I'm scared of becoming a statistic and dying from complications due to kidney failure.

The truth is: the average kidney from a cadaver lasts just 7 years and one from a live donor last *maybe* 15. **I know now that I didn't HAVE to suffer the way I did!**

**If you get a new donor kidney...**

**YOU MUST TAKE ANTI-REJECTION DRUGS AND YOU NEED TO BE SCREENED FOR CANCER REGULARLY.**

**\*\*\* The ANTI-REJECTION DRUGS CAN CAUSE HIGH BLOOD PRESSURE, HIGH CHOLESTEROL AND INCREASE YOUR RISK FOR DIABETES AND CANCER!\*\*\***

I want to save you the terrible pain, the heartache, depression and the intense suffering I endured. I want to show you how to **improve your kidney health and avoid the horrors of dialysis treatments!**

**You CAN have Healthy Kidneys'**... and live an active, healthy life where you never even **THINK** about your kidneys - IF YOU KNOW THE RIGHT THINGS TO DO!

But before I get into all of that, I want to tell you the truth.

**I Was SCARED... I'd End Up Right Back On that Damn Dialysis Machine!**

After I recovered from my kidney transplant surgery and adjusted to the anti-rejection meds I was forced to be on, I tried to get my life back together. I knew I had to find out the **real truth about why my kidneys failed**. I started studying everything I could about kidney disease . . .

The truth is it was because **I was SCARED** . . . scared that if I didn't do SOMETHING I'd end up right back on that damn machine . . . And as I got deeper and deeper into the **truth about why kidney's fail and learned more about what causes kidney disease and harms kidney function**... I got really *pissed* off!

**I'd suffered needlessly for so many years!**

NOW. . . I know now the 'real truth' . . . that my kidney disease was treatable!

## **“The Shocking Truth”**

### **About Kidney Disease!**

Here are just a few of the '**WORST Kidney Treatment Problems**' I STUMBLED upon during my years of kidney research and training into the REAL causes (and real solutions) for Kidney Disease .  
..

#### ✓ **KIDNEY TREATMENT PROBLEM # 1:**

The common marker used to detect kidney function (BUN and creatinine) is NOT considered reliable and may NOT increase above normal ranges -- **until 60% of total kidney function is lost.**

(I've discovered there are *better tests for kidney disease that are covered by your insurance* that your doctor may not even know about. Find out what they are!)

#### ✓ **KIDNEY TREATMENT PROBLEM # 2:**

Heavy metal poisoning can send your kidneys into the toxic over load leading to damage and loss of your kidney's function -- **but the horrible fact is not 1 in**

**The All Natural Kidney Health & Kidney Function Restoration Program**

**[Click Here to Download](#)**

**Thanks!!**

## 1000 doctors will check for this!

(But it is *critical* you get tested for this if you got a kidney problem and I'll tell you all about it and why and what to do about it.)

### ✓ KIDNEY TREATMENT PROBLEM # 3:

By avoiding one commonly eaten food you can delay kidney failure and dialysis by up to 3 years - **and most medical doctors won't tell you about what food to avoid!**

(I've created a list of common *foods to avoid* and tell you the truth about why those harmful foods are doing damage to your kidneys.)

### ✓ KIDNEY TREATMENT PROBLEM # 4:

Common everyday over the counter household items you use in your house you need to get rid off which harm your natural kidney function -- **that medical doctor's don't know about!**

(I'll reveal what these kidney-damaging products are that you could be taking into your body on a daily basis which are sure to affect you and *will worsen* your kidney health.)

### ✓ KIDNEY TREATMENT PROBLEM # 5:

One of the most popular weight loss diets on the market can burn your kidneys out -- **and your doctor probably suggested you lose weight with this exact same low carb/high protein diet!**

**The All Natural Kidney Health & Kidney Function Restoration Program**

**[Click Here to Download](#)**

**Thanks!!**

(This is criminal! Because using popular weight loss diets to try to control your weight - can be causing your kidney function to get even worse! Find out what is the '*right diet*' to use to avoid putting more stress on your kidneys and still lose weight!)

✓ **KIDNEY TREATMENT PROBLEM # 6:**

**Do you love your coffee, caffeine and soda?**

**Did your doctor warn you about the added health risks of drinking them and how they do irreparable damage to your kidneys?**

(Find out how by drinking certain types of herbal teas you can help the filtering system of the kidneys and even *naturally* restore your kidney's health!)

✓ **KIDNEY TREATMENT PROBLEM # 7:**

**Do you feel constantly over-tired, know you are not sleeping well and end up tossing and turning during the night? **Then when you tell your doctor about your insomnia they prescribe a habit forming sleeping pill -- with lots of nasty side effects!****

(Instead, find out how one supplement can end your fatigue and speed up your energy at a cellular level and quickly restore your feeling of well being.)

✓ **KIDNEY TREATMENT PROBLEM # 8:**

**Did you know there are many all natural nutrients including herbs, herbal remedies and amino acids that can improve your energy, delay kidney disease and allow you to live a better quality of life that are recommended by the National Kidney Foundation? **But there are no doctors following these recommendations or testing for the nutrients in their patients suffering with****

## **kidney disease!**

(I found over 10 over the counter supplements with proven research that can drastically improve your kidney function. But don't go running out to the health food store asking the cashier for advice. There are many herbs, herbal remedies and nutritional supplement products out there that can actually make your kidney disease or chronic kidney disease(ckd) worse.

Instead I'll tell you all about the 100% all natural treatments and remedies used in Europe, Asia and other countries which have successfully treated and reversed kidney disease for over 30 years!)

### ✓ **KIDNEY TREATMENT PROBLEM # 9:**

Did you know that there's **ALREADY** a safe scientifically validated over the counter supplement that can stop many kidney diseases in its tracts? **It's criminal that in January of 2009, the FDA classified this potent, entirely safe Chronic Kidney Disease(ckd) therapeutic as a drug, putting it out of reach for many Americans suffering from this deadly condition!**

(I'll tell you all about this and why in other countries this 100% safe all natural supplement has been proven to work and is a staple of most kidney treatment plans!)

### ✓ **KIDNEY TREATMENT PROBLEM # 10:**

No one should be forced to bear the outrageous burden of costly pharmaceuticals and their toxic side effects when a perfectly safe natural alternative treatment exists. **This drug won't be available to Kidney Disease suffers for another 10 to 15 years. Why? Because it has to pass FDA approval and that may take many years for enough clinical trials to prove it works - even**

# Heal Your Kidneys

Without Dialysis . . .

Without Drugs . . .

Without Side Effects!

**But NO MEDICAL DOCTOR In Western Medicine Was Taught This Information In Medical School!**

Medical Doctors are pushing their patients towards dialysis and transplants when some didn't need to. But as a nephrologist (kidney specialist) once told me, **"that's the American way of treating kidney disease."**

It's not doctors who are at fault. They're taught in medical school how to treat kidney disease, chronic kidney disease(ckd) and they stick to the book but also those who *teach doctors* to treat kidney problems!

You need to know that these alternative 'KIDNEY TREATMENT SECRETS' ARE REAL and most medical doctors in the United States DON'T KNOW!

My program is specifically designed to  
**IMPROVE Kidney Health NATURALLY and**  
**ELIMINATE the need for dialysis completely.**

"Thank you so VERY much!

I was really worried I was going to lose my husband. Mark had high blood pressure that caused a lot of kidney damage. We saw a dietitian that gave us some useful information, but I really was looking for something more. When I came upon your program I was excited to get started. I purchased your program, and went out and got all the foods and supplements for the kidneys you recommended to start giving to Mark.

**My husband started to feel more energy and in about 6 weeks he said he felt about 15 years younger!** His nephrologist was happy at the positive results. We explained to him about the program, and he said to keep doing what he was doing. Your diet and herbal treatment program is working to reverse his kidney problems.

It has been 10 months and Mark's kidney health has stabilized. Your program explains and covers every aspect of how to improve kidney function and makes perfect sense that even a housewife, like myself, understands."

### **No More Protein In My Urine And Inflammation Is Gone**

"Living on a small farm I wasn't sure I would be able to follow your treatment program. I felt very relieved that you provided the exact products, supplements and internet stores to get them from. This made it very easy for me. I was able to modify my diet like you recommended and was happy to find I had most of the food already on my farm.

I had IgA Nephropathy kidney disease for years but was okay until recently. My doctor said I had a lot of protein in my urine and inflammation. I took medications like prednisone which helped but nowhere near enough and the side effects were really bad.

**Your program really made sense to me.** I followed it and took all the anti-inflammatory supplements. Overall it was fairly easy to follow with all the references you provided. On my 3 month follow up the doctor said I had normal amounts of protein in the urine and the inflammation was better. He lowered my prednisone which was a big relief for me. I still maintain everything and glad god lead me to your program.

**By the way your kidney diet is easy to follow and eating out guide is very helpful, especially when I visit my family in the city."**

I was reassured I could avoid renal failure when I found The All Natural Kidney Health Program. It covered so many areas including how to improve kidney function and renal diet to follow. I followed the program and what I really noticed was how much better I was sleeping and the constant itching had gone away.

On my next doctor's appointment I had a good feeling things would be better. I found my phosphorus mineral level was normal and I gained back 22% renal function. The doctors and myself think I will be able to avoid dialysis and renal failure.

Thank you from the bottom of my heart."
