ABOUT YOGA BURN

Specifically designed for women, this program is a concise and informative collation of the all relevant information to help you achieve the best you can from your workout regime. Created by Zoe Bray-Cotton, a certified yoga instructor and personal trainer, this program can help women from any walk of life to completely change their bodies. Focusing primarily on helping people to get the most out of yoga, Zoe’s dynamic sequencing strategy is what sets her Yoga Burn apart from other programs on the market.

Yoga Burn is accessed entirely online and comprises a 12 week follow-along video series. Access the sequential videos via smartphone, tablet or PC and implement the valuable information anywhere with connectivity. Comprised of 3 unique phases, each phase lasts around 4 weeks and breaks yoga down into manageable chunks.

KEY POINTS OF YOGA BURN

Broken down into 3 main phases, you are following the advice of a qualified and experienced trainer, whose main objective is to enlighten women as to the benefits of yoga.

One of the main benefits of the Yoga Burn system is that it allows you to start from the beginning and then builds on your knowledge. So, even if you have no experience with yoga you can still get started. You will start with the Foundation Phase, which is suitable even if you have never done yoga in your life. Once you have mastered this phase, you will be able to move on to the Transitional Flow Phase, which will build upon what you have learned.

Finally, when you have mastered the second stage you can move on to the third, which is where you will really achieve mastery of the yoga technique. The system builds on each aspect gradually, so you are learning at a pace that suits you. Let’s take a closer look into the different phases and how they work.
Table of Contents: The Yoga Burn System’s 3 Phases

PHASE 1: FOUNDATION PHASE

In the initial phase of the program, Zoe shows you how to build a foundation of strength and flexibility, whilst learning about which areas
will help kickstart a raised metabolism. Once you have activated the
metabolism, it’s time to move on to the next phase, which helps to
implement the results.

**PHASE 2: TRANSITIONAL FLOW PHASE**

Designed to build upon your foundation stage, this phase implements
poses to help reshape your body and sculpt and tone it. During this
phase, you will also learn about implementing yoga for peace of mind, as
well as health.

**PHASE 3: MASTERY FLOW PHASE**

Phase 3 enables you to activate everything you have learned in the
previous stages and really master the art of good yogic practises.
Designed to build on strength and stamina, you will be given the tools to
really master your own poses and sequences as you optimise what works
for your body. The key principle behind this program is the dynamic
sequencing. This ultimately means that you have good structure to your
poses and that they have been designed with sequencing in mind, to
improve your strength and metabolism as you go, as well as making you
more aware of your breaths and mindfulness. Not designed to be easy,
the Yoga Burn program challenges your body to help you get toned and
stronger, but the structure should help to focus you and take the stress
out of your workout. Essentially, you are reducing cortisol levels, which
can lead to further stress and weight gain, so effectively doing proper
yoga can help to achieve longer lasting results.

**WHAT YOU GET WHEN YOU PURCHASE YOGA BURN**

**Yoga Burn** comprises a set of easy to follow videos, which educate you
to build upon the last poses and focus you on getting the results you want
from a yoga program. As such there are exercises and sequences that you
cannot access anywhere else available in this program. You will get a
healthier, fitter and more flexible body as a result of following the
program, and in addition you will gain access to the videos and
information to provide you with a stress free guide to sculpting the

Designed to help you master the moves wherever you are, this is a valuable addition to the rest of the program.

The other bonus is the Tranquility flow videos, which essentially unlock the fourth stage and contain sequences to help you get into a tranquil state. This is essential for lifelong commitment and helps to assuage stress which can invade your life from many other areas of life.
There are several advantages to using this program. You will learn how to do yoga in a way that reduces cortisol and thus busts stress.
